

The Quality is in the Details

Stow Away™ Retractable Screens give you a clear advantage over competitive systems

Housing mechanism silently and smoothly retracts screen away for thousands of cycles.

Aluminum is powder coated and nylon plastic is UV and corrosion resistant to ensure a lasting performance season after season.

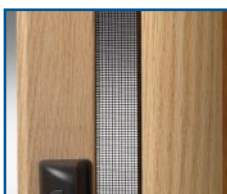

Screen pull bar has extra width and thickness (3/32") for sturdy and smooth operation.

The housing is designed with a bug resistant nylon pile to ensure a tight seal.

Stainable real wood veneer to match interior or exterior woodwork.

It's Not Just a Screen...
It's a **Stow Away™**
Retractable Screen Door

The smart ventilation
solution for the beautiful
doors of your home

StowAway
RETRACTABLE SCREENS

by Stoett Industries, Inc.

Enjoy the fresh air...

Creation of New Air Flow Patterns.

Typically, a beautiful front door is always closed. A **Stow Away™** Retractable Screen Door allows entry doors to be open creating cross ventilation.

A New Ventilation Solution.

High R value doors eliminate the need for storm doors. Gain the **Stow Away™** benefits, while enhancing the overall aesthetics of your door.

Retain the beauty of your doors...

Unobstructed Visibility.

An elegant solution for French doors. When in use, the retractable screen spans from top to sill without any cross supports. Works for both out-swing and in-swing doors.

A smart solution for a sliding patio door, the retractable screen stores out of the way so there is a full view through the glass of the door.

StowAway
RETRACTABLE SCREENS

Free Up Space in Confined Places.

A standard screen door swings open creating an arc of unusable space. A **Stow Away™** frees up space on a small deck or porch.

A **Stow Away™** Retractable Screen Door is Custom-made and Installed for You.

1. A certified installer measures your door to exact dimensions. You choose the door color and screen type.
2. Your **Stow Away™** is produced to your specifications at our USA plant.
3. The certified installer installs it and makes any adjustments for smooth operation.

You will instantly see the benefits and feel the difference of a solid, quiet, and smooth operation.
